PROFESSIONAL SUMMARY

WordPress and Front-End Developer with over 7 years of experience building business websites, WooCommerce stores, and custom solutions. I combine PHP and JavaScript development, performance optimization, and a background in graphic and UI design. Experienced in working with direct clients and agencies, from requirements and implementation to launch, maintenance, and troubleshooting.

CORE SKILLS

WordPress & e-commerce: custom themes and child themes, Astra, Elementor, WooCommerce, ACF, custom post types, hooks, filters, templates, and WordPress Multisite.

Front-end & development: PHP, JavaScript, HTML5, CSS3, MySQL, Git/GitHub, Astro, Tailwind CSS, WordPress REST API, and WPGraphQL; working knowledge of React.

Performance & web operations: Core Web Vitals, PageSpeed, caching, Cloudflare, DNS, SSL, migrations, technical SEO, GA4/GTM, and Docker.

Design: Figma, visual identity, interface design, responsive design, and GSAP web animation.

PROFESSIONAL EXPERIENCE

STUDIO GLICK | WordPress & Front-End Developer · Freelance | Feb 2019 – Present

- Develop, customize, and maintain WordPress websites and WooCommerce stores for businesses, brands, and agencies.
- Build custom themes and child themes, PHP functionality, integrations, responsive interfaces, and user experience improvements.
- Troubleshoot plugin, theme, checkout, and hosting issues; improve performance, technical SEO, and website reliability.
- Manage projects end to end, communicating directly with clients and coordinating deliverables.

GRANT SOLUTIONS (SPAIN) | WordPress Developer | Apr – Aug 2025

- Produced websites for Spanish businesses within WordPress Multisite installations, adapting existing Elementor templates to each client.
- Worked from project briefs in Zoho Projects; configured websites, content, domains, and DNS, then launched and verified sites.
- Delivered up to 7 websites per day in an agency production environment.

CHASMA TOURS | B2B Customer Support | 2015 – 2019

- Supported travel agencies using an online booking platform, resolved issues, and trained users.
